Overview

As a major component of the West Lake Expo in Hangzhou, Zhejiang, P.R. China, WLICSMB has been organized annually since 1999 to promote the growth and development of small & medium businesses worldwide. This year, we hope to continue our tradition of expanding our participation roster which has included delegations from as many as 20 countries, by adopting the theme of ***Creating The Future***.

Each year over 200 delegates attend this unique conference, which provides a forum for sharing experiences, case studies, results of development activities, ideas, applications and research results and collaboration and networking opportunities in the context of Small & Medium Business. The basic aims of the conference are promotion of mutual relationships and providing business opportunities by developing communication linkages and networking opportunities among participating researchers and practitioners.

Hangzhou, as the capital of Zhejiang Province, is a key scenic and tourist city, a famous historic cultural city and one of the Seven Ancient Capitals in China. With its picturesque landscape, Hangzhou is praised as "Paradise on the Earth ". Hangzhou sponsored its first West Lake Exposition in 1929, which had the same image as those of the Chicago Exposition in 1893, the Paris Exposition in 1900 and the Philadelphia Exposition in 1927. The WLICSMB is one of the activities that takes place during the West Lake Exposition.
